### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

Claims 1-8 and 12-17 are under appeal. Of them only claim 1 is the independent claim. It encompasses a moulding composition containing (A) an aromatic polycarbonate, (B) a graft copolymer, having an average particle diameter of 0.5 to 5.0 microns and a grafting yield of 2 to 40 %, (C) (optionally) a thermoplastic polymer, (D) a specific phosphazene and (E) (optionally) a fluorinated polyolefin.

Prior art includes Maruyama et al (EP 0728811). It discloses (A)–(E); but is silent on specific limitations of (B). Maruyama does not disclose or offer any suggestion or hint as regards the (claimed) average particle diameter of the graft copolymer as well as the (claimed) grafting yield.

Prior art fails to render claims prima facie obvious.

Above claims are therefore deemed to be in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
